Skills

Programming Languages
- JavaScript
- TypeScript
- Python
- SQL

Frameworks & Libraries
- React, Next.js
- React-Native, Expo
- Django
- PostgreSQL

DevOps and Tools
- Docker
- AWS (Elastic Beanstalk)
- Git & GitHub
- Figma

Languages
- Spanish
- English, *C2, efset.org*
- Japanese, *basic, UANL*

Job Experience

Full-Stack Software Engineer / Tech Lead, Monterrey, MX *Jun, 2024 – Current*

Vitau Medical, *Y Combinator Startup*
- Tech Lead on web (Next.js), mobile (Expo/React Native), and backend (Django/PostgreSQL) products serving end customers and B2B partnerships
- Own architecture decisions across the stack: feature scoping, system design, code review, and deployment pipeline on AWS Elastic Beanstalk
- Lead development of internal Operative Panel (Node.js) — reduced purchasing team workflows from 3 hrs to 20 min through process automation and UI tooling
- Build and maintain APIs consumed by internal dashboards and external alliance integrations
- Mentor junior developers through structured PR reviews, setting quality standards and reducing production incidents
- Established AI-assisted development workflows across the team, reducing PR cycle time and accelerating feature delivery

Front-End Engineer, San Pedro Garza García, MX *Oct, 2023 – Jun, 2024*

Doorvel, *Startup*
- Built property search features for a real estate platform with polygon-based map search using React and Next.js
- Maintained content pipeline through Headless WordPress + Next.js architecture

Front-End Developer, San Pedro Garza García, MX *Jan, 2023 – Oct, 2023*

Wirebit Digital / Efevoo Pay, *Efevoo Group*
- Migrated Wirebit mobile app from Bare React Native to Expo, modernizing the codebase and unlocking native Expo tooling for faster iteration
- Integrated real-time WebSocket connection on the frontend for Efevoo Pay's payment aggregator

Front-End Developer, Monterrey, MX *Feb, 2021 – Nov, 2022*

Vitau Medical, *Y Combinator Startup*
- Built the Vitau mobile app from scratch (0 to 11k+ active users across iOS and Android)
- Maintained a 4.9-star App Store rating through consistent feature delivery and quality testing with Cypress
- Led mobile development end-to-end: architecture, iOS releases, App Store management, and React Native implementation

Education

Ingeniero en Tecnología de Software (Software Engineer) *Aug, 2017 – Jun, 2022*
Universidad Autónoma de Nuevo León, UANL, Graduate degree

Personal Projects

imagen.garavito.dev — Browser-based Photo Editor
- Built a free alternative to Adobe Lightroom that runs 100% in the browser — no server uploads, no subscription, no account required
- Implements professional-grade photo editing: RGB curves, exposure, contrast, highlights, shadows, saturation and noise controls
- Native HEIC image conversion (iPhone format) handled entirely client-side
- Crop tool with aspect ratio presets (1:1, 4:5, 3:4, 9:16...) mirroring iPhone Photos UX
- PNG and JPG export with quality and scale controls (0.3x to 4x)
